Artichoke, on cultivating, 105, 150, 153
Ashes, barilla, 90. See manure.
Asparagus, salt for, 266

B.

Barn, description of, 210
Barn cellars, 186, 202, 210
Barley, worms in, 178
Bean meal for pigs, 57
Beans, on saving, 289
Bee house, moth proof, 33
Bees, statistics of a hive, 33; management of, 58, 106, 202; transferring, 74, 154; cause of their destruction in 1842, 185, 209, 218; to prevent robbing, 233; the moth, 258
Beets on raising seed, 17; discussion on, 50; See Root Crops
Bird lime, its nature and uses, 249
Blackbirds destroy insects, 49
Blasting, safe mode of, 234, 265, 274, 282, 313
Boilers for cooking food for stock, 217
Bommer manure, 130
Borers, 346
Bones for manure, 146. See manure
Brook Farm Association, 226
Broom corn, 33
Buckwheat, origin of the name, 33; cultivation, 186; harvesting, 281
Budding, remarks on, 234, 257; taking out the wood, 290
Bull, fat, 66
Butter, great yield of, 26. See Domestic Economy.
Button-wood, or sycamore, 178, 194

C.

Cabbages, time for harvesting, 346
Calves, keeping with sheep, 2; large one, 338 See Cattle.
Canker worms, destroyed by quicksilver, 49
Canary seed may be raised in this country, 266
Carrots, discussion on roots, 50; for horses, 289. See Root Crops.
Caterpillars, destroying, 129, 138, 170, 186, 218, 346
Cattle, cutting fodder for, 10, 89, 122; comfort of 26; roots again at hay for 137; to destroy lice on, 138, 170, 361, 401; Ayrshires, Durhams, and Devons, 169; soiling, 169, 177, 218; poisoned by yew, 210; for the hove in, 258, 289. pumpkin-rump, 265; linseed meal for calves, 282; exhibited at N. Y. State fair, 337; steaming food for, 345; Devons, 361, Durham, 385; number in Smithfield market, 394; protect in cold weather, 394. See Oxen and Cows.
Cattle shows, remarks on, 29; of State society, 146, 329; of Essex, 266; of N. Y. State, 221, 329; of Middlesex, 322; of Berkshire, 322; of Worcester, 326, 330; of Hampshire and Franklin, 329; of Plymouth, 329; of Kennebec, Me., 337; of Penobscot, Me., 337, of Barnstable, 338; of Rhode Island, 338; of Franklin, Me., 345.
Cellars, protection of, 41; on warming, 75, 386; floors for, 177
Cement for cracks in cast iron, 401.
Charcoal, manufacture of, 49 See manure.
Cheese, of hogshead, 2; great yield of, 26; exported to China, 42; from buttermilk, 49. See Domestic Economy.
Cherry, Black Morrilla, 250. See Fruit Trees
Cisterns, recommended, 177; construction of, 385
Cleanliness important, 145.
Clover, for manure, 178, 217; hulling machine, 194.
Coal ashes for peach trees, 153
Cobs, meal of, 17, 370
Comfrey as food for stock, 281
Corn, soaks for 121; on raising and the profit 121; to protect from crows, 138; on applying, the manure for 178, 298; suckering, 178; method of harvesting, 266; stripping leaves from, 266; ashes for, 274
Corn fodder for milch cows, 138
Cows, remarkable one, 1; great milker, 2; Hereford, 42; how fed with roots 58; good 58; management after calving, 210, 266; best, 97; unruly milkers, 98; Ayrshires, 161, 169, 241, 219, 265; produce of one, 178; breed and management, 210, 266; an extraordinary one, 233; a precocious heifer, 274; remedy for sore teats, 289; on milking 362; points of a good one, 378. See Cattle.
Cranberries, cultivation of, 90, 128, 290
Crops of 1844, 273
Culture, extra, 370
Cucumber, culture of, 129. See Vines.
Curculio, 346
Currants, how cultivated, 193

D.

Delaware and Maryland peninsula, 234
Domestic Economy. Winter butter, 1; to make butter come; 1; making soap; 81; the milk cellar, 137; butter from scalded cream 138; beer, 138; salt for butter, 146, 194, 234; good butter, 146; new method of obtaining cream, 153; ripe bread, 153; new mode of working butter, 153; preserving butter, 161; make your own candles, 161; new churn, 185; butter making 193; novel mode of working butter, 225; substitute for cream in coffee, 233; to prevent chilblains, 233; to prevent clothes taking fire, 233; apple bread, 266; plum pudding, 273; old pickle for pork, 286; to sweeten rancid butter, 431; Indian slap jacks, 401
Draining, 49; tiles for, 378.
Dynamometer, 34

E.

Early rising, 177.
Ecculeobion, 146, 218; Hartman's, 256, 274
Example, power of, 1
Exercise, in early life, 49.

F.

Farm, building, planting, and stocking, 18; notice of J. S. Birus, 123, of E. Jones's, 250, of Wm. Keath's, 258; at House of Industry at S. Boston, 162.
Farmers and farming, 137
Farming bad, 89; new mode of, 225; will it pay expenses? 395
Farms, report on, 57
Farmer, a happy old one, 25
Farmers, clubs 1; almanac and diary for, 2; the defence of their country, 106; their rights, 337; a book for, 338
Fences, keeping in repair, 106; sunken, 201; 257; cost of, 361.
Fire, to protect wood from, 1
Flowers, their cultivation recommended, 128
Fodder, cutting for cattle, 10, 89, 122, 146
Food steaming for cattle, 10, 345
Fruit, remarks on, 26, 89, 186, 292; new varieties from seed, 122, 128; several kinds described, 266; near salt water, 282; remarks on varieties, 297, 298, 346; statistics of, 370. See Apples, Pears &c
Fruit Book, notice of, 122
Fruit trees, worm in the peach, 1; preserved by quicksilver, 49; culture of peaches, 57; discussion on their cultivation, 66, 74; grafting wild cherry stocks, 90, 130, 137, 186; grafting cement, 90; transplanting, 98, 314; time for grafting and pruning, 98 174; lime for plum trees, 121; wash for, 121, 202; pears on thorns, 122; peat ashes for, 122; tobacco around peach trees, 129; to make productive, 129; caterpillars on, 129, 138, 170; decay of peach trees, 137; salt against curculio, 138; care of 146; coal ashes for peach trees, 153; effects of the stock on fruit, 162; remedy for curculio, 177; an old peach tree, 186; grafting, query in, 193; on winter-killing, 219; management of, 226; to prevent being hide bound, 233, budding, 234, 250, 257; to destroy the peach worms 233; suckers, 250; remarks on, 258; salt for plum trees, 266, 354; for ornament, 274; remedy when eaten by mice, 274; flourish well near the sea, 282; peaches in Walpole, and mode of culture, 290; on raising, 321; salt for, 338; raising peach trees, 362; transplanting in fall, 314, 377; canker in, 377; raising apple and pear trees, 378
Fuel, prepare, 402.

G.

Gardens, grass lands for, 138
Glanders, in man, 33; death from, 58, 66
Gooseberries, management, 146; mildew on, 282; successful culture, 298
Grafting, time of, 98; fall, 281; experiments, 290
Grain, weight of, 233
Grapes, preservation of, 42; native, 121; summer pruning, 218; to prevent their dropping, 233; pruning, 250, 258, 361; notice of specimens, 298, 306, 314, 322; a seedling, 345; mildew on, pruning, 401
Grass, time for sowing seed, 114; time for cutting herds, 202, 224; sowing seed, 258; on indigenous, 402
Grass lands, on improving, 281, 298, 313
Guano. See Manures.

H.

Harrow, compound centre draught, 353
Harvest, an English, 225
Hay, roots against, 137; salt on, 202
Haying, remarks on, 194
Health, cure for cancer, 97; cleanliness, 145; early rising, 177; poison in rhubarb leaves, 218; remedy for summer complaint, 233; cat mint for toothache, 234; blackberry syrup, 266; efficacy of bathing, 289; for the sting of a bee, 289; cure for warts, 378
Heat and cold, remarks on, 74
Hedges in Eng., 378
Hired laborers, on their qualifications, 98
Hoeing, good effects of, 361
Honey dew, 241
Hops, on the standard of inspection, 113, 226, to make kilns, 201
Horses, purging, 1; remedy for bots, 2, 49; wounds and bruises in, 57; elm bark poisonous to, 74; errors in treatment of, 89; liniment, 146; salting, 217; account of Diligence, 233; to save oats in feeding, 233; nose bags for, 242, 257; carrots for 289; at N. Y. State fair, 337; apples for, 378; checking run away, 385
Horticulture, premium list of Mass. Society, 161; exhibition of, 202, 279, 314; laying corner stone for Hall, 298; Annual Exhibition, 305; exhibition at Worcester, 330
House owners and builders, hints to, 282
Husbandry, scientific, 249

I.

Improvements, 154
Iron, to preserve from rust, 57; improvements in the manufacture of, 161
Irrigation, 218, 273

L.

Ladies, committee at agricultural exhibitions, 289
Land, cultivating too much, 17; warming, 98; reclaiming exhausted, 241, 249, 401. See Soils.
Lands in Delaware, 362
Lead pipes, plough for laying, 193
Leaves, the lungs of plants, 138; for manure and litter, 294
Lice, to destroy on cattle, 138, 170, 361, 401
Lime, for plum trees, 121; for agricultural purposes, 242; applying in autumn, 321. See Manures.
Linseed meal for calves, 282

M.

Machine for removing trees, 265, 313; for sowing seed and plaster, 377
Manures, peat, 1; sea mud, 1; Bommer's patent, 9; nitrate of soda, 10; pond mud, night soil, hog dung, 17; discussion on, 18, 26; discussion on their application, 26; remarks on, 26, 49, 194; application of, 33; sea weed, 33; salt, 41; urine, 49; manures and their application, 81; compost, 89, 146, 209, 258, 274; manner of applying, 106; bones and sulphuric acid, 106; green crops, 112, 361, 377; peat ashes, 122, 225; remarks on gases and solutions, 129; concentrated, 130, prices of in Eng, 138; bones, guano, and ashes, 146; charcoal, 146, 235; charcoal and guano, 146; plaster, 153; making and applying, 154; new method of making, 161; coal dust, 177; clover for, 178; barn cellars for making in, 186; how made, 210; dressing for turneps, 233; soot for grass land, 234; lime, 242, 362, 378; salt and root, 257; liquid, 258, 345, 370; action of, 273; ashes for corn, 274; adulteration of, 274, 402; guano, 289; mud &c, 298; dock mud, 305; sale of guano, 345, 346; farm yard, 325; application of guano, 354, 361; to distinguish good guano, 362, 369; prices of guano, 378; making and saving, 385, 393; mode of making, 386; leaves for, 394; corn as a green dressing for wheat, 402
Manuring in the hill, 297; on top, 377
Mechanics, fair, notice of, 306
Marble, artificial, 386
Melons, large one, 289; Red Imperial, 314 Mountain sprout, 322
Mice, to drive, 233
Milk, length of in different countries, 17
Milk, made rich by cornstalks, 138
Milk cellar, 137, 169; descriptions of, 201
Milking directions for, 137, 362
Millet, remarks on, 178
Mowing vs, feeding, 257
Mutton, fat, 254

N.

New Year, 2
Nurseries, notice of, 42; Goodale's at Saco, 178; Downing's, at Newburgh, N. Y., 138; Russells, at Cambridge, 194; Hyde's at Newton, 202

O.

Oak, English in America, 378
Oats, prolific, 10
Orcharding, remarks on, 73
Orchardist, Kenrick's, 194
Orchards, to render old and barren productive, 126; remarks on, 185; a fine one, 210; notice of, 218; a flourishing one, 250; rye injurious to, 378. See Fruit Trees.
Onions, time of sowing, 114; potato, 122; large crop, 338
Oxen, large and handsome, 98; on working in collars, 209, 250, 257

P.

Paint cheap, 146
Pastures, improvements in, 298
Patents, report on, 153
Peaches, in Walpole, the, manner of raising location, soil &c., 290, 298; notice of specimens, 306, 314. See Fruit and Fruit Trees.
Pears, new varieties from seed, 2; notice of, 314, 322. See Fruit and Fruit Trees.
Pea weevil, 177
Peas, buggy, 98
Peat, ashes of, 122. See Manures.
Pens, steel, to preserve, 2
Pepper tree, or plant, 289, 329
Piggery, a convenient one, 297
Planting and sowing, time for, 106
Plants, location of, 97; protection of in winter, 226; removing green house, 257; on selecting their food, 282, 394, 401
Ploughs, improvement in, 10, 18; Centre Draught, 18, 73, 90, 209, 217; for laying lead pipes, 193, the best, 209; Barnaby & More's, 217, 265; 297
Ploughing, fall for wheat, 73; on shallow and deep, 202, 210, 217, 250, 265, 274, 305, 313; on the manner of, 209; subsoil and surface 242, 257
Ploughing match, at Worcester, 377; in Delaware, 377; St. George's, 369
Plums, notice of, 282. See Fruit and Fruit Trees
Posts, on setting for fence, 42
Produce, prices of in England, 378
Potatoes, diseased caused death, 9; raising from seed, 33, 105; discussion on, 50; digging in winter, 90; Columbia, 122; on selecting seed, 130; cultivation of, 153; French Perfectionist, 178; blight, 210; choice of for seed, 233; digging and securing, 305; disease in, 314, 321, 330, 353, 362, 378, 393, 401, large yield, 338; to keep from sprouting, 394
Poultry, amount of in U. S., 33; feeding, 57; hens need green food in winter, 58; discussion on, 82; large capons, 98; Poland hens, 130, 138; artificial hatching, 146, 218, 250, 274; Guilderland hens, 177; extraordinary hens, 233; to prevent gapes, 258; hens in a garden, 266; a large hen, 314; description of a hen house, 354; management of hens, 369; fattening, 370; Guinea goose, 377; two chickens from one egg, 378; notice of Bement's work on, 386; statistics, 393
Preservative composition, 97
Produce, large, 249
Pruning, time for, 98, 162. See Fruit Trees

R.

Railway traveling, safety of, 378
Radishes, how raised, 138
Rats, to drive, 233; receipt for killing, 346, 377; general remarks on, 402
Resolutions on agriculture, 81
Roads, importance of, 177; farm, 258
Rocks, hoeing, 25
Root crops, manuring with their tops, 25; discussion on, 50; remarks on, 122; time for sowing, 170
Roots, report on, 9; for cattle, 25; against hay, 137; carrots, 289
Rotatation of crops, 225, 241, 393, 394
Rust, cause of, 289, 354
Ruta bags, on raising, 139. See Root Crops
Rye, Multicole, 66; winter, 89; several years in succession with green crops, 219; remarks on its cultivation, 274

S.

Safety fuse, 265, 274, 282, 313
Sap, ascent of, 170
Salt, for the dairy, 2; as manure, 41; for farm stock, 58. See Manures
School houses, remarks on, 370
Scions. See Fruit Trees
Sea mud, 1
Season, the, 178
Seeds, from Patent Office, 74; soaking in chemical solutions, 129, 361; on cleaning, 289; steeping, 361
Seed store, new, 74
Sheep, white scour in, 1; large, 2; South Down, &c., 2, 10; on different breeds, 10; diseases of, 17; history of Merinos, 65; young lambs, 90; cure of hove in, 97; prolific, large, 98; cure for stretches, 114; proper points of, 137; beans for, 145; for mutton, 146; not to be sheared early, 162; sheep husbandry, 162; tar for, 169; to prevent catching cold, 177; Cheviot, 177; destroying ticks, 186; cutting tails of, 217; weaning lambs, 274, South Down, 281; fattening on potatoes, 321; at N. Y. State Fair, 338; management of, 378
Silk, remarks on, 17, 105; culture and manufacture of, 50; success of in Maine, 187; noise disturbs silk worms, 186; amount raised in the U. S., 233
Snuff, utility of, 233
Soap, an making, 81
Society, basis of, 393
Soiling neat cattle, 169, 177, 218
Soils, poor improved, 49, 122; action of, 166; mixing, 153; Cape Cod, 154; stir the, 178; renovation of, 178, 202; adaptation of to crops and plants, 233; stirring often, 361; analysis of, 368
Sorrel, no indication of acid in soils, 242
Sowing and planting, time of, 106
Spade Husbandry, 74
Stock, management of, discussion on, 34, 42; feeding, 57; salt for, 58; boilers for cooking food for, 217; keep the best, 346; native, 377; water for, 386; taking care of, 386; on wintering too much, 394
Strawberries, 186; Hovey's 201; Melon, 210; time of setting the plants, 250
Sugar amount of in U. S., 2; on making improvement in, 266
Sugar, maple, on making, 66; specimen of, 98; refining, 114; amount made, 266
Sugar mill, 10.
Subsoiling, 81; results in, 193
Sunflower, cultivation of, 137
Swine, large, 2, 33, 57, 66, 130; Berkshire, 2, 10, 137; great breeder, 33; bean meal for, 57; substitute for ringing, 129; apples for, 282, 330; convenient house for, 297; at N. Y. State fair, 338; keeping warm, 354; management of, 354

T.

Take care! 33
Things, which I hate to see, 97; which I like to see, 241
Timber, best time for cutting, 9; preserving, 57, 153
Tobacco, raised in Connecticut, 122
Tools, care of, 386
Trees, transplanting, 98, 314; cultivation of forest, 105, 106; ascent of sap, 170; machine for removing, 265; fruit trees for ornament, 274; protecting, 377; manner of setting, 377; to prevent mice from barking, 378
Turneps, Russian sugar, 25; discussion on, 50; time of harvesting, 346. See Root Crops.

V.

Vines, to destroy bugs on, 162, 305, new bads best for, 170; not injured by bugs after corn, 234

W.

Wasps' nests, to destroy, 354
Water, works for raising, 298, 369
Weeds should be destroyed, 186
Wells, bad air in, 177
Wet lands, reclamation of, 105, 266, 402
Wheat, dividing the plants, 17; fall ploughing for, 73; preparing seed, 74, 106, 225; Black Sea, 82; top dressing for, 90; large yield of, 106; on raising, 114; Black Sea not liable to rust, 129; charcoal for, 233; effects of dung on, 266; amount raised in Ohio, 273; in Vermont, 328; corn as a dressing for, 402
Wild cherry, grafting and budding, 90, 130, 137
Winter, the coming, 378
Wood, destruction of, 193; difference in the weight of green and dry, 385
Wool, fine, 154
